## Summary

Experienced public health professional interested in eHealth, mHealth, infectious diseases, health emergencies, data visualization, country development, effective social interventions, social business/enterprise, and any other solutions that supplement limited resources to improve the lives of people everywhere.

## Experience

### Public Health Specialist, Tuberculosis & Rabies
World Health Organization
Jun 2019 - Present (2 years +)
Supported massive scale-up of tuberculosis (TB) screening, testing, treatment and prevention under the Race to End TB campaign resulting in a 15% year-on-year increase in cases found.

Developed and designed four mobile apps for the End TB App Suite (http://ntp.doh.gov.ph/apps) and the COVID-19 surveillance system, COVIDKAYA.

Supported the National Rabies Prevention and Control Program with joint annual reports from the human and animal sectors, improved data flows, technical advisories, national vaccination campaigns, a rapid response toolkit, and health promotion.

Created the contact tracing handbook to support the national COVID-19 response.

### Monitoring And Evaluation Specialist, Health Emergencies
World Health Organization
Jan 2017 - Jun 2019 (2 years 6 months)
Created an internal implementation monitoring systems to ensure effective results-based activities were conducted according to the WHO Planning, Budgeting and Monitoring Framework.

Planned and conducted a training workshop on After Action Reviews and Simulation Exercises.

Created an M&E database to collect and store all M&E activities under the IHR Monitoring and Evaluation Framework as well as National Action Plans and Pandemic Preparedness Plans.

### Epidemiologist, Tuberculosis and Leprosy
World Health Organization
Jan 2012 - Dec 2016 (5 years)
Analysed and created tables and figures for eight annual global TB control reports (2007 to 2014 datasets).

Conducted in-depth programme reviews in Viet Nam, Mongolia, Papua New Guinea and the Philippines.

Developed mobile apps for TB and leprosy including programme directory and leprosy disability assessment tool with high user acceptance.

**Health Data Analyst, Tuberculosis**

World Health Organization

Jan 2007 - Jan 2012 (5 years 1 month)

Created four Global TB control reports as part of core writing team (www.who.int/tb/publications/global_report). Led data management and analysis for "Improving TB estimates" workshops in all 6 WHO regions.

Taught 10 plus trainings for the WHO Health Data Forum including trainings on R and STATA. Conceptualized re-design of order management system for Global Drug Facility. Designed TB technical assistance coordination web tool.
